## LEADERSHIP IN LOCAL AND INTERNATIONAL MULTICENTER RESEARCH COOPERATIVE GROUPS IN THE FIELD OF MULTIPLE MYELOMA

- Founder of the Intergroupe Francophone du Myelome (IFM) in 1994 (with JL Harousseau)
- Past president and member of the IFM board till today
- IFM chairman for trials of transplant eligible patients (in the past with JL Harousseau, now with P Moreau)
- Founder in 2014 of a research team (labellized by INSERM), with Hervé Avet-Loiseau (head of this team), located in the IUCT-O, and dedicated to the genomics of myeloma.
- Member of the International Myeloma Society (IMS) board
- My work and responsibilities in the myeloma field has stimulated me to assume my current responsibility as General Director of the “Institut Universitaire du Cancer de Toulouse Oncopole”, a new comprehensive Cancer Center (with >1500 employees) at which myeloma research has a leading position as a model for cancer research.

## MEMBERSHIPS

- French society of hematology
- French society of stem cell transplantation (Founder and past president)
- Intergroupe francophone du myélome (Founder, past president, board member)
- European Bone Marrow Transplantation group
- International Myeloma Society (board member)
- American Society of Hematology

## HONORS AND PRIZES

- Prize of the French Society of Hematology in 1995
- Prize of the “20 years of Programme Hospitalier de Recherche Clinique “ (PHRC) from the French minister of health in 2014
