

Pieter Sonneveld

Pieter Sonneveld is Professor of Hematology and head of the Department of Hematology at the Erasmus MC Cancer Institute and Professor of Hematology at the Erasmus University of Rotterdam, The Netherlands. He received his medical degree from the Erasmus University Rotterdam and completed his PhD at the University of Leiden, The Netherlands, and worked subsequently at the National Cancer Institute in the United States for 2 years. Professor Sonneveld is chair of the Dutch HOVON Myeloma Group. He was one of the founders of the European Myeloma Network (EMN) and is currently the chair. Within EMN, he jointly organized a cooperative network for clinical trials, which has resulted in four large European Intergroup trials and scientific workshops for the standardization of diagnostic methods in Europe. Within the European Hematology Association (EHA), Professor Sonneveld has been chosen President-elect and he serves on the Fellowships & Grants Review Committee, is chair of the Scientific Working Group on 'Multiple Myeloma' and has been a reviewer for many years. He serves on the scientific advisory boards of the International Myeloma Foundation (IMF), the International Myeloma Working Group, and the International Myeloma Society, and has been a member of the Editorial Boards of Blood, Leukemia, Leukemia Research, Haematologica, and Annals of Haematology. Professor Sonneveld is the author of nearly 400 scientific publications and several book chapters. In 2015 Professor Sonneveld received the Robert F. Kyle Lifetime Achievement Award.
